A Wedding at Battery Point Lighthouse

Battery Point Lighthouse is being preserved, maintained and operated by the Del Norte County Historical Society on a non-profit basis as a public educational resource. Although private weddings do not meet the goals of the Society's mission, the Society recognizes the desire of couples to use the location for wedding ceremonies. There is no charge for use of the island. However, if couples would like to help the Society in meeting its goal of preserving the Lighthouse, your generous contribution will be appreciated. Below are guidelines to be used by couples in planning their ceremony at Battery Point Lighthouse.

1. Weddings will be held outside of the Lighthouse unless arrangements are made with the keepers and a facility use agreement is completed.

2. There will be no access to the Lighthouse or its facilities without prior arrangements being made with the keepers.

3. Anything needed for the wedding will be brought over by the parties involved and everything (including trash) will be removed from the island immediately following the ceremony.

4. Del Norte County Historical Society and Battery Point Lighthouse are not responsible for any injuries which may occur, loss or damage to any property, or accessibility to the island.

SCHEDULED DAY/DATE OF WEDDING:_____/_____

We have read and understand the above responsibilities for a wedding at Battery Point Lighthouse.

_____	_____	( )_____
